Schoology process:

I created courses for each competition in Schoology. One for Adam Smith, one for David Ricardo, and one for Personal Finance Challenge. Share the access code with students so they may join. Organize students into grading groups by school.

Getting started on Schoology for students

How to use grading groups

<https://support.schoology.com/hc/en-us/articles/201001403-How-to-Use-Grading-Groups>

In Resources, I created a question bank of about 30 questions for each test/round. In each course, I created a test/Quiz for each test/round and connected it to the appropriate question bank to pull 15 random questions. Thus each student had their own personalized test. *(Note: This feature is currently disabled for Basic users.)*

How do I use question banks in Schoology?

When test time came I enabled the test and told students to begin. Tests were given a time limit of 15 minutes in settings. When students were done testing I filtered the gradebook by team and worked with Excel for manipulation.

How do I export grades?
