“It started as just another annual conference I go to, but it ended as the most valuable professional development conference I look forward to more and more every year. This conference is fun and intellectually stimulating. I always feel so supported.”

– Elena Zee,
Arizona Council on
Economic Education

“It's rare that you get so much talent and experience in one room. I highly recommend this conference for new center directors so they can learn what is working for other centers nationwide. It was so inspiring and informative.”

– Nancy Baca,
Northern Arizona University
